

TIMELESS WISDOM AT WORK®

As a speaker, my role is to inspire, inform and awaken audiences to greater possibilities and outcomes within their given set of circumstances. After 25 years of speaking to groups, that remains enjoyable and easy to accomplish. The challenge comes in the next step—teaching the members of our audience how to ground and integrate the ideas, principles and practices we present to their organization. We support our clients by offering a foundation of customized engagements based on our “Timeless Wisdom At Work” philosophy, practices and approach.

Sean Casey LeClaire is a speaker, facilitator and executive coach. His leadership development and coaching company The SCL Group works with a wide range of organizations in the life science, high tech, robotics, consumer goods, and construction industries. Sean has privately coached over 750 business leaders, scientists, artists and athletes, as well as thousands of people in group settings. He is noted for his humor, courage and provocative inquiry. With over 30 years of business experience, Sean Casey LeClaire is a seasoned corporate executive. His presentation style has been called “the perfect blend of a monk and a US Navy Seal.” He is the author of two books: *Hug an Angry Man and You Will See He Is Crying* and *Mud-Wrestling with My Mind*.

KEYNOTE THEMES

EMBRACING THE 21ST CENTURY

*In a society of ever-increasing speed, furious technological advancement, and visceral pressure...
...Timeless wisdom principles and practices give you the edge.*

PUTTING PURPOSE FIRST

Purpose is a deep seated impulse to make a positive difference in the world. Not all companies have a purpose but all great ones do.

LIFE/WORK BALANCE

Leaders who are out of balance affect the balance sheet. Most executives are not blessed with 100% autonomy over task, time and technique but they can learn to have full control over their life/work balance. They can cultivate the resiliency necessary to achieve inspired performance and inner peace.

HEAR FROM ATTENDEES

“The executive team experienced a truly remarkable turn around, which can be tracked to Sean’s strength as a coach/facilitator and his purpose in action.”

Alan Main
President
Bayer Medical Care

“Sean LeClaire is an expert presenter. He challenges assumptions people make about themselves as well our unconscious beliefs and behavior. Sean’s ability to get people to open and engage in real conversation is stunning.”

Sam Coluccio
Director
Microsoft

“Even walking into the room with my team, not knowing anyone but me, there was an amazing engagement, instantly we got to work. Sean’s ability to get people engaged quickly is a special gift.”

Kathleen Gondek
Vice President
Bayer Specialty Medicine

“Sean is very skillful when he presents and facilitates groups. He notices things consciously that most people are unconscious of, and he brings these ‘jewels’ into awareness with respect and curiosity. He makes an offer - learn from this, or not, you choose - without an edge. If you are willing and it serves the audience or group, he walks with you into your shadow with love and deeper awareness and understanding.”

President
